Healthtech Clinical Leader | Program Management & Customer Success

KEY ACHIEVEMENTS

Account Management & ROI: Served as project lead on the Amazon Halo Movement validation study, contributing to a commercial product line that shipped an estimated 400K+ units and generated an estimated \$40M+ in revenue, with findings published in npj Digital Medicine.

Clinical Program Management & Scaling: Conceived and launched Strong Strides, a running rehabilitation program integrating Ochy AI gait analysis, scaling from a single-site pilot to all 13 company locations within 3 months and generating up to 50 visits/week with potential to exceed \$1M in annual revenue.

Complex Research & Regulatory: Supported 5 FDA 510(k) submissions for medical devices ranging from \$200 consumer wearables to \$150K+ enterprise rehabilitation systems, while concurrently managing multiple real-world evidence and clinical outcomes research projects from protocol through peer-reviewed publication.

PROFESSIONAL EXPERIENCE

Career Break

Feb 2026 – May 2026

Hired for Clinical Operations Lead at Drive Health; offer rescinded prior to start date due to company funding. Paternity leave through May 2026.

Multisite Operations Manager | Revolution Physical Therapy Weight Loss

Dec 2024 – Feb 2026

- Launched a new clinical site from signed lease to first patient visit in under 30 days, reaching profitability within 3 months at approximately \$3K/month net with a single-clinician model, expanding company operations to 13 Chicagoland locations.
- Implemented Looker and Google Suite KPI dashboards, standardizing clinical workflows and improving operational transparency resulting in measurable gains in staff-reported visibility.
- Scaled clinical team through targeted recruitment and structured onboarding protocols, sustaining care quality and 100% staff retention during a period of rapid organizational growth.
- Led platform migration from PNOE to Cosmed metabolic testing systems. Reduced testing time by 20% and enabled same-day results delivery. Improved data accuracy, reporting reliability, clinician adoption, and patient follow-up adherence while creating a differentiated marketing capability.
- Developed and launched Strong Strides, a running rehabilitation program integrating Ochy AI gait analysis, now active across all locations and generating up to 50 running-specific visits per week at peak, diversifying the clinical service mix beyond traditional programming.
- Sourced and cultivated two high-yield physician referral relationships generating ~40 referrals per month at a 75%+ conversion rate, ranking among the top contributors to new patient volume across 13 locations.

Concierge Physical Therapist | Luna Physical Therapy

Jun 2024 – Dec 2024

- Grew personal patient referral volume by 40% through high patient satisfaction scores and active self-marketing of clinical specialization across orthopedic and neurologic populations.
- Maintained rigorous EHR documentation workflows while managing a high volume patient caseload, leveraging Luna's digital health platform to streamline scheduling, documentation, and care coordination.

Senior Clinical Program Manager | Shirley Ryan AbilityLab

Oct 2017 – Mar 2024

Clinical Partnerships & Product Development

- Managed a portfolio of strategic healthtech partnerships, including Samsung, Amazon, ReWalk, Cionic, and TrainHealth, spanning FDA-regulated clinical trials, ML algorithm validation, and commercialization initiatives, with multiple contracts exceeding \$1M.
- Maintained 100% client renewal rate across all major accounts over 6 years by delivering outcomes-driven support and building trusted relationships with both frontline clinicians and executive stakeholders.
- Served as the clinical voice to product, engineering, and data science teams, translating frontline needs into roadmap priorities for AI-driven and robotic rehabilitation tools.
- Supported FDA 510(k) clearance and CMS reimbursement efforts through real-world outcomes data generation, demonstrating fluency in complex regulatory and commercialization environments.
- Contributed real-world outcomes data that directly informed Lifeward's successful Medicare coverage expansion for personal exoskeletons, significantly impacting patient access to devices with a retail value exceeding \$90K and establishing a landmark reimbursement precedent for the category.

Clinical Operations & Research Execution

- Designed and scaled a Medical Technology Immersion Program generating an estimated \$75K in annual cash-pay revenue through technology-enhanced sessions and is now institutionalized within Shirley Ryan AbilityLab's flagship Expert Evaluation offering.
- Led multiple concurrent clinical research projects from protocol development through publication, evaluating AI-assisted and robotic rehabilitation technologies in neurologic populations.
- Developed SOPs, onboarding materials, and workflow systems that maintained audit-readiness and operational consistency across concurrent clinical trial phases.
- Built reporting frameworks to communicate utilization trends and clinical outcomes to executive stakeholders and commercial partners across a portfolio of concurrent research and commercialization initiatives.

Physical Therapist, Neurology & Spinal Cord Injury | Shirley Ryan AbilityLab Dec 2014 – Oct 2017

- Delivered inpatient neurologic rehabilitation across float and dedicated SCI team assignments, developing clinical depth in complex neurologic populations that anchored later program and research leadership roles.
- Earned Board Certification as a Neurologic Clinical Specialist (NCS) in 2017, reflecting a deliberate commitment to neurology prior to transitioning into clinical program management.

Physical Therapist II | Loyola University Medical Center Jul 2012 – Dec 2014

- Delivered clinical care across complex inpatient settings in a large academic health system, building foundational expertise in documentation, care coordination, and multidisciplinary collaboration.

CORE COMPETENCIES

Client & Partnerships: B2B/B2B2C, enterprise health systems, renewal & retention strategy, account expansion, C-suite to frontline stakeholder management, strategic alliance development

Product & Strategy: Clinical roadmap input, user feedback aggregation, cross-functional collaboration, program lifecycle management, milestone tracking

Operations & Analytics: Multisite operations, hybrid/remote workforce management, SOP development, KPI dashboards, process improvement, budget management, capacity planning

Implementation: Site onboarding, workflow mapping, go-live coordination, training development, pilot execution

Care Transformation: Clinician enablement, technology adoption at scale, change management

Clinical Research: IRB, GCP (CITI certified), protocol development, RWE, regulatory submissions, clinical trial management, data monitoring, FDA 510(k)

Tech Stack: Microsoft 365, Google Suite, Tableau, Looker, Asana, Monday.com, Smartsheet, REDCap

THOUGHT LEADERSHIP

Peer Reviewed Publication: Fanton M., Harari Y., Giffhorn M. et al. (2022). Validation of Amazon Halo Movement: a smartphone camera-based assessment of movement health. npj Digital Medicine.

Textbook Authorship: Jayaraman A., Rymer W., Giffhorn M., O'Brien M. Using Robotic Exoskeletons for Over-ground Locomotor Training. Neurorehabilitation Technology.

International Conference Workshop: Automated Gait Pattern Facilitation with Advanced Closed-Loop Control Algorithm. RehabWeek 2023, Singapore.

Podcast Interview: A Framework to Facilitate Exoskeleton and Exo-Suit Use into Clinical Practice. Topics in Neurorehabilitation. 2020.

EDUCATION

Doctor of Physical Therapy
B.S. Exercise Science, Health Information Management

Saint Louis University
Saint Louis University

LICENSES & CERTIFICATIONS

Illinois Physical Therapy License | Board Certified Neurologic Clinical Specialist (NCS) | AHA CPR & First Aid
